

**PM-10 Monitoring Results
Potrero Phase 2
6-7-2021 through 6-11-2021**

Daily Average PM-10 (mg/m³)	PM-1	PM-2	PM-3
6/7/2021	0.018	0.017	0.018
6/8/2021	0.013	0.006	0.008
6/9/2021	0.008	0.005	0.012
6/10/2021	0.004	0.006	0.192*
6/11/2021	0.005	0.007	0.016

*Elevated PM10 readings at monitoring location PM-3 (upwind monitor) are attributed to off-site leaf blowing and landscaping activities observed along the west side of Wisconsin Street from approximately 8:30 AM to 10:30 AM. PM10 concentrations remained elevated for the duration of this observed off-site activity. PM10 concentrations remained below 0.05 mg/m³ from 7:30 AM to 8:30 AM, prior to the start of the observed off-site activity, and from 10:25 AM to 3:30 PM, immediately following the completion of the observed off-site activity. The elevated daily average PM10 concentration at PM-3 was due to external influences beyond the control of project personnel.
